

JOB OPPORTUNITY

Job Title: Laboratory Technician
Organization: Watoto Child Care Ministry
Duty Station: Watoto Village Clinic - Laminadera-Gulu

Watoto is a family of people from all over the world who are working together to ensure that the forgotten have a place to belong. In a time of civil war, we planted Watoto Church in Kampala, Uganda to speak hope and life to the nation. As we work alongside the most vulnerable in our society, our aim is to rescue individuals and raise each one as a leader in their sphere of life so that, in turn they will rebuild the nation.

In all of this, Watoto remains a local church, committed to celebrating Christ and caring for community.

Watoto is seeking to recruit a Laboratory Technician to participate in diagnosis, treatment, and prevention of diseases.

Key Duties and Responsibilities (but not limited to)

- To actively participate in routine laboratory operations within the areas of haematology, chemistry, microbiology, immunology, and parasitology as assigned by the Medical Laboratory Coordinator (MLC).
- To plan, coordinate and organise all the medical laboratory screenings within Watoto medical services.
- To update and maintains inventory of laboratory supplies/stock within the laboratory.
- To work closely with fellow laboratory scientists, MLC and Procurement to ensure that all the laboratories are well stocked.
- To ensure compliance to policies and standard operating procedures, continual development of policies, protocols, departmental forms, and guidelines within the laboratory section.
- To ensure that the laboratory environment is well maintained, cleaned, safe and secure always and participate in any risk assessment and risk mitigation that may arise.
- To maintain the quality and safety of laboratory equipment, reagents, and supplies.

Qualifications, Skills and Experience.

- The applicant for the Laboratory Technician position should have a diploma in Medical Laboratory with an interest in microbiology. A degree in Laboratory Science shall be an added advantage.
- At least 2 years working experience in a microbiology department.
- Good inter-personal skills and ability to relate well with children of all ages.
- Should be passionate about community health care with ability to work effectively within a team environment.
- High level of motivation and initiative and strive for a high standard of practice.
